About Me

Nur Syazwani Zulaikha Binti Safwan is a dedicated scholar with an unyielding spirit born on February 25, 1999, at Tuanku Jaafar Hospital in Seremban, Negeri Sembilan. As the eldest of three siblings, she embodies resilience and determination in her pursuit of academic excellence.

Syazwani's academic journey is a reflection of her unwavering commitment to realizing her dreams. After completing her Diploma in Sports Management at UiTM Seremban in 2020, she continued her educational voyage, earning her Bachelor's degree in Sports Management from the same university in 2022. Her relentless pursuit culminated in the attainment of her coveted degree, a reflection of her dedication and perseverance.

However, Syazwani's thirst for knowledge and academic achievement knows no bounds. Despite her accomplishments, she remains driven to excel further. Currently, she has completed her Master's degree in Research mode at UiTM Seremban. After this, she will embark on her journey towards a PhD in the field of sports management.

Throughout her academic journey, Syazwani has consistently demonstrated unparalleled dedication and commitment to her endeavors. Her story is not only one of academic achievement but also a reflection of the power of perseverance and determination in the face of challenges.

Abstract: Organizational performance can be evaluated through the effectiveness of human resource management (HRM) practices implemented in the organization. However, the problem of improper and misguided implementation of HRM practices causes conflict between employees and organizations, influencing organizational performance. This study examines the effect between HRM practices and organizational performance among Malaysian State Sports Councils' (MSSC) employees by adapting the Social Exchange Theory. This survey involved a total of 280 MSSC employees. This research instrument consists of

Abstract

Employees are the most valuable resources that contribute to the organization's success. Employed university graduates are expected to be employees with good work skills to meet the needs of employers. Nevertheless, the problem of employee turnover always being challenging for management to solve. This study aims to determine the level of human resource management practices practiced in Malaysia. A total of 370 sports graduates who worked in the public and private sectors were selected for this study. Data were acquired through a questionnaire form consisting of 26 items to evaluate human resource management practices, including recruitment and selection, training and development, rewards, performance appraisal, and participation and communication. Data were also analyzed using descriptive analysis. The results show that each practice's human resource

Sembilan, Kampus Seremban
Corresponding Author's Email: syazwanisafwan@gmail.com

Abstract

Employability enables graduates to grab the organization's opportunities and benefits, making them highly employable. Despite that, poor graduates' employability is seen as an attractive issue in the organization as they are the asset to determine success. As a consequence of this problem, this study aims to assess the level of employability perceived by Malaysian sports graduates. The quantitative approach using a survey design was used to conduct this study. Questionnaires were distributed to 370 sports graduates employed in public and private organizations. A total of 20 items for employability were assessed using descriptive analysis. Based on the findings, it was reported that the level of employability perceived by the graduates was at a high level. This shows that sports graduates believe they can deliver their knowledge and experience to the working environment. Thus, future researchers recommended conducting the study by looking at the perspective of employers and employees to gain high constructive findings.

ABSTRACT

This study investigates the disparities in perceived organizational commitment among sports graduates employed in Malaysia's public and private sectors. The problem of turnover is a widespread global phenomenon resulting from employee dissatisfaction with the organization and lack of commitment. The issue of employee commitment in the public and private sector organizations is frequently discussed and deliberated upon. Thus, this study investigates the disparities in perceived organizational commitment among sports graduates employed in Malaysia's public and private sectors. 370 sports graduates participated in the survey. The data was collected through the administered questionnaire consisting of 22 items divided into three domains: affective, continuance, and normative commitment. Statistical analysis was performed using an independent sample t-test. The findings demonstrate a significant difference in affective commitment, continuance commitment and normative commitment based on working sector as the p -value is less than 0.05. Sports graduates in the public sector demonstrated higher levels of commitment across all domains compared to their private sector counterparts. The implications of this study are beneficial for both public and private sector organizations to gain a comprehensive understanding of employees' organizational commitment. Future research is expected to investigate other control variables, such as working experience. A longitudinal study also may be applicable in ensuring a comprehensive perception of employees.

GENDER DIFFERENCES IN ORGANIZATIONAL COMMITMENT

ABSTRACT

Objective: This study aims to determine the gender disparities of commitment between male and female employees within an organization. This study aims to offer valuable insights to employers, assisting them in fostering an inclusive work environment that encourages equal commitment and engagement from all employees, irrespective of their gender.

Method: A survey study was conducted, which involved 370 employees who are currently employed in public and private organizations in Malaysia. Samples were selected using stratified random sampling. The study employed a questionnaire comprising 22 items to assess organizational commitment: affective, normative and continuance. The collected data were analyzed using the MANOVA test to examine any significant differences in organizational commitment based on gender.

Results: The results reveal a significant difference based on gender on affective and normative commitment, while continuance commitment shows insignificant findings based on gender.

Abstract: To stay relevant in this market field, involving technology, many sports brands come forward with features that distinguish them from the other brands. Sports brand companies prioritize consumer demand to maintain the relevance of their products in the market. They emphasize customer satisfaction and brand loyalty, as these factors directly impact sales outcomes. Sporting goods customers come from diverse backgrounds, and university students significantly contribute to the sales of these products. Therefore, this research investigates the correlation between the contentment of customers and their loyalty toward sports brands within the context of university students. The quantitative approach using a survey design was used.

Abstract: Turnover among employees is a major issue that significantly has an impact on human resource management and organizational success. One of the key aspects of turnover is the loss of valuable knowledge and technical skills, which is particularly prominent in sports organizations. Thus, this study explored the relationship between job satisfaction and turnover intention in Edacity, Johor. The research employed a quantitative design and involved distributing a questionnaire containing 40 items that assessed job satisfaction and turnover intention to 40 employees in Edacity, Johor. The findings revealed a clear and negative association between job satisfaction and turnover intention. In other words, employees who are satisfied with their job are less likely to leave the organization. Consequently, the results of this study can be utilized to enhance employee well-being, guide future research, and inform human resource planning and development. It is recommended that policies be improved based on these findings, and further surveys should be conducted with a new sample.

LINKING HUMAN RESOURCES MANAGEMENT PRACTICES AND ORGANIZATIONAL COMMITMENT: THE MEDIATING ROLE OF EMPLOYABILITY

*Mohamad Firdaus Ahmad, ^bNorlena Salamuddin, ^cShahlah Surat, ^dNur Syazwani Zulaikha Safwan, ^eRozita Abdul Latif, ^fAnnisa Basar, ^gMohd Azharul Azemi

ABSTRACT

Purpose: The performance of a good organization can be evaluated through the effectiveness of human resource management practices on employees. However, the problem of employee turnover always occurs because of weaknesses in an organization's human resource management practices, which affect the employee's employability and organizational commitment. Therefore, this study examines human resource management practices, employability, and organizational commitment among sports graduates.

Design/methodology/approach: This survey study involved 370 Universiti Teknologi MARA (UiTM) sports graduates who have worked in the government and private sectors. This research instrument contains 57 items to measure human resource management practices, employability, and organizational commitment. Data were analyzed using descriptive, inferential, and structural equation model (SEM) analysis using Analysis of Moment Structures (AMOS) software.

Findings: The study results show a direct and indirect effect between the variables studied. The study results show that employability partially mediates the relationship between human resource management practices and organizational commitment.

Practical implications: This study fills a gap in research by establishing and examining the relationship between the antecedents of human resource management practices, employability, and organizational commitment. The results of this study can be used by Higher Education institutions to regularly review the curriculum and co-curriculum syllabus to ensure that the graduates' success can align with the needs of the industry and employers.

ABSTRACT

This study examines the intricate relationship between perceived risk management and student satisfaction concerning the sports facilities offered by a university. As universities strive to create conducive environments for physical activities, the effectiveness of risk management strategies becomes crucial in ensuring student safety and contentment. A survey involving 330 university students was conducted, employing well-established tools to gauge their perceptions of risk management and satisfaction with the sports facilities offered. The collected data was subjected to correlation analysis, revealing a statistically significant and robust positive relationship ($r = .793^{**}$, $p < 0.01$) between perceived risk management and student satisfaction. This result underscores the importance of effective risk management in enhancing students' overall satisfaction with the sports facilities provided by the university. However, while the study establishes a compelling correlation, it is vital to acknowledge that other factors could also influence student satisfaction. This study contributes to the understanding of how risk management practices correlate with student experiences within university sports facilities. This study provides valuable insights for institutions aiming to optimize student satisfaction and well-being. Further research could delve into specific risk management strategies that students value most and explore their optimal integration for maximum impact on satisfaction levels.

PROMOTING ECONOMIC EMPOWERMENT THROUGH EFFECTIVE IMPLEMENTATION AND LINKING SOCIAL CAPITAL IN URBAN AGRICULTURE PROGRAMS

^a Nur Shuhamin Nazuri, ^b Mohd Roslan Rosnon, ^c Sara Shakilla Mohd Salim,
^d Mohamad Firdaus Ahmad, ^e Siti Shazwani Ahmad Suhaimi

ABSTRACT

Objective: Urban agriculture (UA) is seen as a way to tackle food insecurity in cities and boost economic growth. Yet, achieving economic empowerment through UA programs is challenging. This research aims to identify the values linked to community participation in UA in the Klang Valley area of Malaysia and understand how these values contribute to economic empowerment with the help of social connections.

Methods: Data was collected from 180 respondents who participated in UA programs, using multistage random sampling. Partial Least Square Structural Equation Modeling (PLS-SEM) was applied to analyze the relationships between various variables. Mediating effect analysis was conducted to explore the theoretical indirect relationships between constructs.

Results and conclusion: The results indicate that two dimensions, planning and implementation, contribute significantly to linking. This study also highlighted that implementation linking have positive effects on economic empowerment meanwhile planning negatively affects economic empowerment. By fostering networks and relationships between these groups, social capital linking facilitates the identification and mobilization of resources and support for UA initiatives.

Research implications: Striking a balance between planning and other participation elements is crucial for program success. Additionally, the study reveals that linking social capital plays a significant role in enhancing the positive outcomes of program implementation on economic empowerment. Building strong social connections and collaborations within the community are essential for promoting economic empowerment effectively.

Keywords: urban agriculture, sustainability, empowerment, participation, linking social capital.

Exploring the Correlation Between Physical Activity Levels and Mental Health among Employees at Majlis Sukan Negeri Johor

Published Date: 08 March 2024

Abstract

Physical activity plays a pivotal role in fostering a conducive work environment by promoting the mental well-being of employees within an organization. The primary objective of this research is to investigate the correlation between levels of physical activity and mental health among employees at Majlis Sukan Negeri Johor. A total of 110 respondents (54 males and 56 females) were selected through a simple random sampling technique. A survey-based approach was adopted, utilizing a questionnaire consisting of 27 items to assess physical activity levels, employing the International Physical Activity Questionnaire Short-Form (IPAQ-SF), and mental health, using the Warwick-Edinburgh Mental Well-Being Scale (WEMWBS) questionnaire. The analysis commenced with descriptive statistics to outline the employees' physical activity levels and mental health statuses. Subsequently, Spearman's Rho correlation analysis was employed to ascertain any associations between physical activity levels and mental health among the employees at Majlis Sukan Negeri Johor. The findings reveal that the majority of employees exhibit moderate levels of physical activity, with the highest mean score observed in the Hedonic Perspective domain of mental health. However, Spearman's

YBrs. Dr.,

SURAT PENGHARGAAN

Dengan hormatnya saya merujuk perkara di atas dan surat YBrs. Dr. 100-KNS (HEA.30/7) bertarikh 21 Mac 2024 adalah berkaitan.

2. Kami amat mengalu-alukan sebarang usaha untuk melakukan kajian berkaitan sukan seperti yang dilaksanakan oleh Nur Syazwani Zulaikha binti Safwan (SR750 - Sarjana Sains Sukan dan Rekreasi), bertajuk '*Exploring the Role of Human Resources Management (HRM) Practices, Organizational Commitment, and Organizational Performance in Malaysian State Sports Council*'.
3. Kami menghargai inisiatif pelajar tuan dalam menjalankan kajian sedemikian. Kami percaya dapatan daripada kajian tersebut dapat dimanfaatkan sebaiknya nanti dalam pendekatan membawa sukan negara ke tahap yang jauh lebih tinggi.
4. Sehubungan dengan itu, kami mengucapkan syabas dan terima kasih di atas pemilihan tajuk kajian yang melibatkan agensi penggerak sukan negara. Semoga usaha dan kerjasama seumpama ini akan terus dijalin dalam agenda pembangunan sukan negara.

Sekian.

Dear Prof. / Assoc.Prof. / Dr. / Mr. / Mrs. / Ms.

APPRECIATION AS A REVIEWER OF EXTENDED ABSTRACT FOR THE 3RD GRADUATE DIGITAL INVENTION, INNOVATION & DESIGN (GDIID) 2023

Thank you for reviewing an extended abstract entitled: [REDACTED] for our *Graduate Digital Invention, Innovation & Design (GDIID) 2023* which was held online on 1 June 2023 - 31 October 2023.

I deeply appreciate your time and energy spent in this article reviewing. On behalf of the organizing committee members, I would like to extend our gratitude for your voluntary participation in making our publication a great success. Without your support, we would not be able to reach our goals in maintaining high peer review standard of our publication in GDIID 2023.

Again, I thank you.

"REVOLUTIONIZING THE FUTURE WITH DIGITAL CREATIVITY"

Sincerely,

.....
Dr Norlina Mohd Sabri

3. Syarat-syarat pelantikan sebagai Ahli Pembangun MC adalah seperti berikut:-

- Pelantikan ini adalah secara **tidak berelaun**.
- Pembangunan MC diambil kira dalam Amanah Tugas Pensyarah bagi **komponen K2 (Inovasi Pengajaran dan Pembelajaran)**.
- Memastikan kursus MC **lengkap dan sedia untuk ditawarkan** dan mendapat pengesahan Universiti.
- Dikehendaki mematuhi garis panduan pembangunan dan pelaksanaan MC UiTM yang ditetapkan.
- Dikehendaki **mematuhi takwim pembangunan** yang ditetapkan.
- Pembangun mematuhi etika penggunaan bahan dalam Internet dan mengelakkan unsur *plagiarisme* dalam bahan yang dimuat naik.
- Pembangun bertanggungjawab atas semua bahan yang dimuat naik dalam MC.
- Menyelia dan memantau MC** yang telah dibangunkan dan ditawarkan di pelantar rasmi UiTM (UFUTURE).
- Berinteraksi secara berkala dalam MC** (sekurang-kurangnya sekali bagi setiap dua minggu) setelah MC ditawarkan.
- Dalam tempoh pelantikan ini, syarat-syarat perkhidmatan dan tangga gaji jawatan hakiki sebagai pensyarah dipatuhi.

4. Pihak Universiti berharap Tuan/ Puan dapat melaksanakan tanggungjawab yang diamanahkan dengan sempurna, demi kepentingan dan kemajuan Universiti Teknologi MARA.

Sekian.
